½ ton pick-up load	\$90
¼ ton pick-up load	\$50

Only pick-up sized loads or smaller will be accepted. Attendants will determine exact fee based on materials and density of the load.

## SAFETY

Safety is the primary concern at the Transfer Station. Please be extremely alert to potential hazards as you dispose of your trash and recyclables. Follow the instructions of the attendants as they are present to help all of us be safe and to maximize appropriate recycling methods.

**Approach the compactor in a single-file traffic pattern** and stand clear when the compactor is in operation.

**NO WALK-UPS TO THE COMPACTOR.**

No person shall be allowed in or to remove any items from any of the bins.

Use care when disposing of the glass to **avoid shattering** and injuring yourself or others.

Watch for pedestrians when operating your vehicle and be alert for vehicles moving through the Transfer Station.

**Children should not be unattended at any time.**

Please alert the attendants of any safety hazards you encounter.

We will not be leaving any items out for taking. Once your items are dropped off they will be put in a container for disposal.

Matthew Thebodo, Attendant

## **TRASH & RECYCLING**

The pay-as-you-throw and Recycling program provides a simple, fair and easy method for disposing of household trash and recyclable items. (Recycling is mandatory in Lyme.)

### **Here's how it works:**

Household trash must be in the special Lyme trash bags, tied shut and not weighing more than **30 lbs**, or in a commercial bag weighing not more than 30 lbs and use a Pink Transfer Station Card.

Bulky items such as sofas, mattresses, refrigerators, Construction & Demolition (C&D) material that cannot be recycled are disposed of in the C&D container. The Fee Payment Card is used for the associated fees. See the attendant. Styrofoam packaging/peanuts go in the C&D bin as well.

### **Recyclables as follows:**

The Containers Bin **can** take:

- Plastics #1 through 7 (No Caps!)
- Aluminum cans
- Tin and other metal cans

Glass Bin **cannot** take:

- Mirrors
- China
- Pyrex
- Porcelain (remove metal)
- Auto safety glass

(Above items go in the C & D)

The Container Bin **cannot** take:

- Metal/Tin/Plastic bottle caps!

The Fibers Bin **can** take:

- Newspapers
- Office paper
- Computer paper
- Telephone books
- Soft cover books
- Posters
- Magazines
- Manila envelopes
- Envelopes
- Junk mail
- Egg cartons
- Hard cover books (no covers)

The Fibers Bin **cannot** take:

- Tyvek envelopes (express mail)
- Gift wrap
- Blue print paper
- Food contaminated paper
- Hard cover books
- Carbon paper
- Plastic/foam/bubble/peanut type packaging material

The Cardboard Bin **can** take:

- Cardboard (clean)
- Box Board

The Cardboard Bin **cannot** take:

- Juice cartons
- Milk cartons
- Egg cartons (fibers bin)

Items Containing Mercury:

- All types fluorescent bulbs may be dropped off at these stores: Home Depot; *some* Ace and True Value Hardware stores accept up to six at a time – give them a call.

Please rinse and **CRUSH** all the containers. The heavier the load is, the better! Crushed containers will allow for less frequent pulls, saving energy and pull fees.

Hazardous Household Waste, oil based paint, gasoline, insecticides, asbestos, automobile batteries, tanks, any flammable, caustic or toxic substances and unwanted medicines **cannot** be disposed of at the Lyme Transfer Station. Household Hazardous Waste collection days are held periodically through the Upper Valley Hazardous Waste organization. [www.uvhhw.org](http://www.uvhhw.org)

Electronics collection day is held at the Lyme Transfer station once yearly. A fee will be paid to an outside vendor. Microwaves, computer/computer parts, televisions, printers, copiers, scanners, VCR's, DVD players etc. must be held at home until the designated day.

**When in doubt, ask the attendant!**
