7/11/14

Lyme Cemetery Trustees Meeting Minutes

Present: Lara Dwyer, Laurel Ross

Minutes from meeting on 5/23 were approved.

Laurel met with Jim Amber in the Highland Cemetery. He is currently revising the gate and beds in the Memorial garden to have it accurately fit into that space. We will coordinate with a welder to meet Jim and securely install the gate. He also enlarged the bed at the entrance, and enlarged beds near the hemlocks to protect them from mowing. We are continuing discussions with him regarding plans for future landscaping projects in the cemetery.

Patty coordinated with Harvey Brotman and had the cemetery database moved to her computer in the town office. She will enter backlogged cemetery plot data, and will continue to enter data as she receives it in the future.

Water has been restored to Highland Cemetery, we will follow up with Michael to review what work was done.

A proposed date of 7/31 has been set to have a day of gravestone cleaning in the Highland Cemetery by the Cemetery Trustees. Lara will send out an email to confirm this date with all members.

Laurel will meet with Jim Henderson later in the summer to review future plan for trees in multiple cemeteries to help us plan budget for next year.

Jonathan Apell will be here for annual grave restoration, he will let us know when he can confirm exact dates.

Respectfully submitted,

Lara Dwyer
