Item 2: Solar Zoning Amendment Discussions

The Board discussed a questionnaire for Town residents to gather information about the size and siting of large solar systems that would be acceptable to the Town.

It was decided to have a short introduction followed by questions. John had written a and introduction that the Board would use as a starting point. The Board then discussed what type of information they wanted to gather and how to phrase the questions. Board Members had previously submitted questions to the Planning and Zoning Administrator, who had sent them to the members. The Board worked from these questions. Hebe Quinton kept track of the revisions and would consolidate and format them for the next meeting.

It was suggested that the questions be sent to members of the Energy Committee for their input.

John asked the Planning and Zoning Administrator to check into the cost of mailing the questionnaire to the Town residents.

The meeting adjourned at 8:50 pm.

Respectfully Submitted,
David A. Robbins
Lyme Planning and Zoning Administrator.
