TOWN OF LYME APPLICATION FOR ZONING PERMIT

The undersigned applicant requests a Zoning Permit for the development described below. Any permit issued shall be void in the event of misrepresentation on this application. Permits only authorize the development described in this application and expire one year from their date of issuance. Any substantive change in plans shall require re-application.

(if applicable)	NH Septic Approval for Construction/Operation Number	
· · · · /	Proposed Increase of Living Area in Square Feet	

DESCRIPTION OF THE PROPOSED WORK AND/OR CHANGE IN USE:

ESTIMATED COST OF CONSTRUCTION: _____ Permit fee based on cost of construction: 0.25% of estimated cost or a minimum of \$15 (Ex. \$10,000 x .0025 = \$25 fee). If construction begins without a permit, additional administrative and legal fees will be charged. Additional fees if ZBA hearing is required.

The applicant agrees that town officials may inspect the property during and after construction. The applicant should review the Zoning Ordinance, and if a hearing is required, the ZBA Rules of Procedure. See reverse side for instructions.

Signature of Applicant

The owner gives authorization to the applicant (if applicant different from owner) to represent the owner in the application for this permit by the following signature.

Signature of Owner

Permit Application

In the area below please provide a sketch showing any new structure or improvement with dimensions and floor area. The sketch should also indicate the distances of your proposal from road, side, and rear property boundaries; and any water features. The road setback is from the road right-of-way—not the traveled way (pavement or gravel). If not known, it's assumed the road right-of-way is 50' and the traveled way is in the center of the right-of-way. Please show ALL proposed accessory structures such as well, septic system, propane tanks on your sketch.
