

Solar Credit

"Solar energy system" means a system which utilizes solar energy to heat or cool the interior of a building or to heat water for use in a building and which includes one or more collectors and a storage container. "Solar energy system" also means a system which provides electricity for a building by the use of photovoltaic panels.

II. In a municipality that adopts or re-adopts the exemption under RSA 72:62 on or after January 1, 2020, "solar energy system" means, in addition to the definition in paragraph I, a system which utilizes solar energy to produce electricity for a building and includes all photovoltaics, inverters, and storage. Systems may be off grid or connected to the grid in a net metered or group net metered arrangement pursuant to RSA 362-A:9 or in a direct retail sale arrangement pursuant to RSA 362-A:2-a. **You must apply for this exemption by April 15th of the year.**

Contact the Select Board's Office for additional information or assistance.
